AMSA Mandated Practical Assessment Coxswain Grade 2 NC

MAR10418 Certificate I in Maritime Operations (Coxswain Grade 2 Near Coastal)

Candidate name:

RTO name:

RTO number:

Vessel name(s):

Candidate assessment result summary

The candidate has completed all components of the relevant Maritime Training Package, including this practical assessment and has been deemed competent:

Assessor name and number:

Assessor signature:

Date:

Assessor comments:

Candidate instructions:

1. Observe all legislative and workplace health and safety (WHS) / occupational health and safety (OHS) requirements and comply with vessel safety management system.
2. Observe all procedures as set out in the vessel's operating documents.
3. Complete the practical tasks below using vessel documentation as required.
4. While completing the practical tasks, answer all questions, as directed by the assessor.

Assessor requirements:

Assessors of the AMPA must be approved by AMSA in accordance with the Administrative arrangements for the approval of registered training organisations as final assessors (AMSA 132).

Vessel/assessment requirements:

The on water practical assessment must be carried out on board a vessel of ≥ 5.0 m in length that is appropriate to the certificate of competency being assessed and which is fitted and equipped to a standard sufficient to allow the candidate to complete the practical assessment tasks.

Assessor instructions:

Ensure the candidate's name, RTO details and vessel name(s) are recorded on the cover page of this AMPA prior to commencing the practical assessment.

Each practical assessment task has a code adjacent to it that specifies the conditions under which the performance and assessment of each task must be carried out. The table below contains an explanation of the meaning of each of these codes.

I	Task is to be completed by each candidate individually
G	Task may be completed as a group activity with individual assessment. The group must contain no more than 5 candidates.
V	Task must be completed on a vessel that meets the requirements above while operating in navigable waters.
W	Task may be completed either in a workshop or on a vessel that meets the requirements specified above
P	Task must be completed in water (pool, or other safe water)
F	Task must be completed on a fire ground
S	Task may be completed on an approved simulator where realistic conditions are not feasible aboard a vessel (such as an absence of traffic or navigation marks)
O	Task may be completed by observation

Where no code is specified for a task this is at the discretion of the assessor.

The AMPA may be conducted throughout the training or after all training has been completed.

As each task is completed successfully the assessor must sign and date the AMPA in the appropriate column. Where a number of tasks are assessed by a single assessor on the same day these tasks may be bracketed together and signed off as a group.

Additional simulated exercises and oral questions may be used to provide further opportunity to clarify a point or for a candidate to demonstrate competence.

Once all tasks for a unit of competency have been completed successfully the assessor should complete the section below the tasks for that unit.

Once the practical tasks for all units of competency have been signed off the assessor who signs off the final unit should complete the Candidate assessment result summary on the cover page of this AMPA.

Practical assessment tasks		Assessor Initials	Date
MARF027 Apply basic survival skills in the event of vessel abandonment			
• collect, manage and interpret information on the use of lifesaving equipment and procedures to be followed when order to abandon vessel is given	I		
• communicate effectively with other personnel and passengers during simulated abandon vessel musters and emergencies	IV		
• determine type and extent of emergency and appropriate survival action to be taken	IV		
• remain afloat without a life jacket for at least 5 minutes	IP		
• don a lifejacket in water	IP		
• ensure behaviour reflects statutory requirements pertaining to lifesaving appliances	IP		
• swim in a lifejacket for a minimum of 50 m	IP		
• tow with a life jacket for a minimum of 25 m	IP		
• maintain a group huddle for at least 10 minutes	GP		
• swim in a group conga line for a minimum of 50 m	GP		
• hold heat escape lessening posture for at least 10 minutes	IP		
• operate radio equipment, including very high frequency (VHF) or high frequency (HF) radios	IW		
• operate and use orange smoke flares or red handheld flares	G		
• operate and use life buoys	IP		
• operate and use lifejacket or personal flotation devices	IP		
• read and interpret instructions on emergency procedures, safety management systems and plans	I		
• recognise and interpret muster signals appropriately for indicated emergency	IV

MARK007 Handle a vessel up to 12 metres		Date
• anchor a vessel	GV	
• handle a disabled or partially disabled vessel	I	
• manoeuvre a vessel to berth and leave a berth	IV	
• manoeuvre a vessel to come to, and leave, a mooring	IV	
• manoeuvre a vessel to maintain a steady course	IV	
• manoeuvre a vessel to retrieve a person overboard	IV	
• steer astern	IV	
• undertake preparations for towing, including: - crew briefings that include the task at hand and risks to persons on both vessels - ensuring means of communication between the two vessels is available - ensuring tow ropes are in good condition and of adequate strength and length for the proposed tow - ensuring tow line is of sufficient length to minimise shock loading on tow-line - making tow fast to the towing vessel to ensure steerage can be maintained - making provision for rapid slipping of the tow in emergency situations - preparing messenger ropes for passing tow lines	GV	
• tow and be towed	GV	
• turn short around	IV	
• turn a vessel across the tide/wind	GV	
• maintain situational awareness	IV	
• use appropriate communication	IV

MARN008 Apply seamanship skills aboard a vessel up to 12 metres		Date
• apply work health and safety (WHS) / occupational health and safety (OHS) requirements and work practices	I	
• check seaworthiness and general condition of a vessel up to 12 metres	IV	
• coil and stow ropes	I	
• handle ropes	I	
• identify deterioration in hull and fittings, and its causes	IV	
• perform an eye splice	I	
• perform common whipping on ropes	I	
• perform letting go and weighing anchor	IV	
• prepare and throw a heaving line	I	
• secure a vessel alongside using vessel mooring lines, including: - bow and stern lines - fore and aft springs	GV	
• secure anchor and equipment on completion of anchoring operations	GV	
• tie a reef-knot, bowline, clove hitch, round turn and two half hitches, rolling hitch and sheet bend – single and double	I
