E

Ref. T5/2.01

BLG.1/Circ.19
20 June 2006

**PRODUCTS WHICH HAVE BEEN CLASSIFIED OR RE-CLASSIFIED SINCE
THE ADOPTION OF THE AMENDED IBC CODE IN 2004**

1 MEPC 52 and MSC 79 both adopted the text of the amended IBC Code by resolutions MEPC.119(52) and MSC.176(79) respectively in 2004. Since the adoption of the amended Code, the evaluation and assignment of the carriage requirements of products have continued through the work of the Working Groups of GESAMP/EHS and ESPH respectively. To reflect these ongoing evaluations this circular has been issued and contains two lists of products:

- .1 Annex 1 – list of products to be added to chapters 17 or 18 of the amended IBC Code; and
- .2 Annex 2 – list of products currently in the amended IBC Code for which the carriage requirements or product name have been revised.

2 While under normal circumstances, the IBC Code takes precedence over an IMO circular, in this exceptional case the entries in annex 2 to this circular supersede those in the Code.

3 This circular is issued to assist Administrations and other stakeholders in their preparations for the entry into force of the revised Annex II to MARPOL 73/78 and the amended IBC Code.

4 In this respect, it is reiterated that when a cargo is loaded prior to the entry into force date and unloaded after the entry into force date of the revised Annex II to MARPOL 73/78, the classification of the cargo at the time of loading should remain valid until it has been unloaded and consequential requirements have been met.

ANNEX 1
List of products to be added to chapters 17 or 18 of the amended IBC Code
